CCHI is pleased to announce the establishment of the “Discover Healthcare Interpreting” CoreCHI™ Scholarship!

The purpose of the scholarship is to support interpreters of languages for which only the CoreCHI™ certification is currently available, including refugee languages and languages of lesser diffusion.

CCHI has identified a particular need to support interpreters in smaller language communities in their pursuit of earning the designation of a certified interpreter. In keeping with CCHI's mission to
offer a professional certification for healthcare interpreters of all languages, CCHI asked language companies to support interpreters seeking the CoreCHI™ certification. We are grateful and excited to announce that two companies rushed to help! Thanks to their contributions, CCHI will award up to five (5) scholarships, in the amount of $210 each, each half-year cycle in 2017.

The inaugural 2017 Spring Cycle scholarships are made possible thanks to the generous contribution from Fluency (www.goFluently.com, Carmichael, CA). We express our deep gratitude to Bill Glasser personally for being instrumental in providing the support.

Look for the announcement about the sponsor of the 2017 Fall Cycle scholarships!

Click here to download the Scholarship Application in MS Word format. Email the complete application as an MS Word or pdf file attachment to scholarship@cchicertification.org by 11:59 pm PDT on June 25, 2017. The scholarships are awarded only to new applicants (i.e. those who have not submitted a certification application prior to the scholarship award) and cannot be used retroactively.

The winners of the Spring Cycle scholarships will be announced on July 15, 2017.

Laura has a unique perspective on Glendon as she is a graduate, an involved alumna as well as a teaching professional at the school.

Let’s listen to her perspectives, as she shares them with Margarita, at https://youtu.be/cmajYmVkJwk.

other industry on professional issues. Other professionals (doctors, nurses, lawyers, insurance agents, bankers, etc.) are present when laws and regulations that affect their work are being discussed. This is how practitioners advocate for their profession. Interpreters need to offer their expertise with the same authority. If interpreters are not present, others will provide uninformed or their interest-driven opinions, and the profession will suffer the consequences.
